PROJECTS

PromptTool - Project Management Platform | [GitHub](#) | Mar' 26

- Built a team-first project management workspace designed to optimize planning, task tracking, and software delivery velocity.
- Developed a high-performance Kanban task management interface using React 19, Vite, and Tailwind CSS, facilitating streamlined workflow planning and execution.
- Engineered a secure **RESTful** backend infrastructure with Node.js, Express, and MongoDB, implementing JWT authentication and role-based access control for safe team collaboration.
- Created an interactive real-time dashboard to surface critical project insights, empowering teams to identify bottlenecks and accelerate project shipping cycles.

Tech: |React 19, Vite, Tailwind CSS, Node.js, Express, MongoDB, JWT

Patient Experience Analytics Engine (RAG) | [GitHub](#) | Jan' 26

- Built an end-to-end **Retrieval-Augmented Generation (RAG)** pipeline to transform unstructured hospital reviews into actionable operational insights.
- Implemented **ChromaDB** and **Google text-embedding-004** to enable high-speed semantic search and retrieval of contextually relevant patient feedback.
- Engineered a custom **LangChain (LCEL)** workflow with source-citation logic to mitigate LLM hallucinations and ensure 100% factual accuracy.

Tech: |Python, LangChain, Google Gemini 2.5, ChromaDB, Gradio, Vector Embeddings, NLP

Autonomous Market Analysis and Content Generation Pipeline | [GitHub](#) | Jan' 25

- Implemented a cooperative system of specialized agents (Market Researcher and Content Writer) using CrewAI, integrating Serper API for real-time web scraping and data gathering.
- Designed a sequential task execution workflow driven by Gemini 2.5 Flash to automatically synthesize complex industry trends into structured reports and publish-ready articles.
- Automated the deep research-to-publication lifecycle, significantly reducing manual research time while ensuring high-quality, comprehensive, and up-to-date insights.

Tech: |Python, CrewAI, Gemini 2.5 Flash, Serper API, LangChain, LLM Agents, Prompt Engineering

TRAINING

Virtual Summer Training at LPU June '25 – July' 25

- Acquired hands-on experience with advanced trees, graphs, heaps, and optimization techniques through an intensive June–July data structures program.

CERTIFICATES

Introduction to IOT | [IITK](#) Oct' 25

Master Generative AI & Generative AI tools (ChatGPT & more) | [Infosys](#) Aug' 25

Computer Communications | [Coursera](#) Nov' 24

The Bits and Bytes of Computer Networking | [Google](#) Sept' 24

ACHIEVEMENTS

- Secure a spot in the Top 100 teams nominated for Smart India Hackathon(SIH) at the college level hackathon Sept' 25
